KOFI ANNAN FELLOWSHIP IN
PUBLIC HEALTH LEADERSHIP PROGRAMME
PROSPECTUS

About the Fellowship
Kofi Atta Annan, the seventh Secretary-General of the United Nations, Nobel Peace Prize Laureate, and founding chair of the Kofi Annan Foundation, exemplified visionary and principled leadership over the course of his life and career. Of his numerous accomplishments was the establishment of the Global Fund for AIDS, Tuberculosis, and Malaria (The Global Fund), which changed the approach to preventing and managing infectious diseases and the practice of public health globally. Visionary and principled leadership is critical for Africa to implement a new public health order that will enhance the timely detection and effective response to public health threats, and to ensure Africa has a healthy and productive population. It is also critical for mitigating the economic and social effects of these health threats while contributing to sustainable achievement of Africa’s Agenda 2063 and the Sustainable Development Goals.

The African Union Commission launched the Africa Centres for Disease Control and Prevention (Africa CDC) Kofi Annan Fellowship in Public Health Leadership on 25 May 2020 in partnership with the Kofi Annan Foundation, following its approval by the Governing Board of Africa CDC in March 2018. The Fellowship aims to support aspirational public health leaders (Fellows) in Africa in acquiring advanced skills and competencies to strategize, manage and lead public health programmes that will positively transform public health in Africa. Fellows admitted in the programme will be senior public health professionals from African Union Member States who will contribute to and lead the implementation of a new public health order for Africa, and in turn develop the next generation of public health leaders.

Why apply for the Fellowship
The programme targets aspirational leaders with a background in any field of public health including, but not limited to, One Health, medicine, finance, policy, animal health, or environmental health. These are leaders who want to acquire advanced skills in leading impactful health initiatives, employing health diplomacy, as well as enhance their ability to develop bold, strategic and achievable goals to propel Africa towards achieving Agenda 2063. If this is your aspiration and you are ready to advance public health outcomes in Africa, you should apply.

What the Fellowship includes
The Fellowship will support 12 months of high-level professional development in advanced public health leadership that includes acquiring skills in health diplomacy, change management, influencing policy, among others. Fellows will be supported by experienced experts in relevant fields from Africa and the diaspora. At the end of the programme, Fellows would have developed skills:

▶ for competent leadership styles that influence and empower others to achieve ambitious multi-dimensional health goals;
▶ to frame and develop a viable strategic vision for bold, yet attainable goals for positive health outcomes;
▶ for well-rounded globally competent leadership with attributes such as vision, resilience, flexibility and efficiency;
▶ to steer the complex environment of public health practice to achieve and maintain positive impact; and
▶ in health politics, negotiation, partnerships, and health diplomacy.

Fellowship format
The Fellowship will use a hybrid learning methodology that includes self-directed learning to accomplish a Personal Development Plan (PDP) over 12 months. Experiential learning shall take place through webinars, keynote lectures, online self-directed study with evaluations, case studies and an individual leadership challenge project. It will include eight weeks of institutional residential experience.

Fellowship eligibility criteria
Applicants for the Fellowship must:
▶ be citizens of an African Union Member State;
▶ possess a postgraduate degree in a relevant field in public health;
▶ have relevant professional experience in any field of public health, including but not limited to one health, medicine, finance, health economics, health policy, animal health, or environmental health;
▶ be in full-time employment in any area of public health, in a private or public institution in Africa;
▶ have a good track record or be able to demonstrate the potential for effective public health leadership where they can positively impact the public health outcomes of populations.

Fellowship selection
Selection to the Fellowship will be by an independent committee comprising experts from the African Union Commission and Africa CDC, and their global partners. The selection process will emphasize an equal opportunity approach to secure the representation of women and underrepresented groups.

Financing
Africa CDC will provide all learning and development materials and meet all costs associated with the fellowship, including travel, daily allowance and insurance during the residential placements. Fellows will be supported to ensure that they have the relevant software for online learning.

Important dates
▶ Deadline for applications: 31 December 2020 at 5:00 pm Eastern Africa Time.
▶ Successful applicants will be informed by 30 December 2020.
▶ The Fellowship will start on 1 February 2021.
