SAVING LIVES AND LIVELIHOODS
THE AFRICA CENTRES FOR DISEASE CONTROL AND PREVENTION (AFRICA CDC) PROGRAMME TO SUPPORT MEMBER STATES TO ROLLOUT COVID-19 VACCINATIONS

SUPPORTED BY
MASTERCARD FOUNDATION

OPEN CALL FOR PROPOSAL FOR
SETTING UP AND MANAGING OF COVID-19 VACCINATION CENTRES, TRAINING, AND RECRUITMENT OF VACCINATORS IN AFRICAN UNION MEMBER STATES UNDER THE SAVING LIVES AND LIVELIHOODS INITIATIVE

GUIDELINES FOR APPLICANTS

Call for Proposal Reference: ACDC/MCF/CVC/01
Deadline for submission of proposals: 30.07.2021
NOTICE

This is an open Call for Proposals, where all documents are submitted at one stage (Concept Note and Full Application Form). However, in the first instance, only the Concept Notes will be evaluated. Thereafter, for the Applicants whose Concept Notes have been pre-selected, evaluation of the Full Application Form will be carried out. Further to the evaluation of the Full Application Form, an eligibility check will be performed for those which are provisionally selected. This check will be undertaken on the basis of the supporting documents requested by the Contracting Authority and the signed “Declaration by the Applicant” sent together with the application.

The total number of pages of the proposal including the Concept Note should not be more than 25 pages of Arial 10 characters with 2 cm margins. The Concept Note should not be more than two (2) pages.

There are five Lots for application. Applicants can apply for one or more Lots of their preference. The Lots are:

LOT I. North African Region (7 African Union Member States)
LOT II. East African Region (14 African Union Member States)
LOT III. Central African Region (9 African Union Member States)
LOT IV. West African Region (15 African Union Member States)
LOT V. Southern African Region (10 African Union Member States)

Open Call For Proposal For Setting Up And Managing Of Covid-19 Vaccination Centres, Training, And Recruitment Of Vaccinators In African Union Member States Under The Saving Lives And Livelihoods Initiative

2021 Guidelines For Applicants
1 SETTING UP AND MANAGING OF COVID-19 VACCINATION CENTRES, TRAINING, AND RECRUITMENT OF VACCINATORS IN AFRICAN UNION MEMBER STATES

1.1 BACKGROUND

Through the Saving Lives and Livelihoods initiative a partnership between the Africa Centres for Disease Control and Prevention (Africa CDC), a specialised institution of the African Union Commission and the Contracting Authority, we are seeking proposals from eligible entities as per section 2.1.1 to set up new, and operate existing COVID-19 vaccination centres (CVCs), conduct training, and recruit vaccinators to support African Union Member States to rollout COVID-19 vaccination. Funding under this Programme will be made available to selected Funding Recipients to support African Union Member States to deploy COVID-19 vaccinations.

The Africa CDC is a continent-wide public health agency. Its mission is to strengthen Africa’s public health institutions’ capabilities to detect and respond quickly and effectively to disease outbreaks and other health burdens through an integrated network of continent-wide preparedness and response, surveillance, laboratory, and research programs. In order to achieve its mission, the Africa CDC works with African Union Member States, the World Health Organization (WHO) and partners in the five geographic sub-regions of Africa to strengthen their capacity in five strategic priority areas:

I. Surveillance and disease intelligence.
II. Emergency preparedness and response.
III. Laboratory systems and networks.
IV. Information and technology systems; and
V. Institutes and research.

Enablers of the Africa CDC’s mission include leadership, management, financial sustainability, workforce, partnership and innovation.

The world is currently going through an unprecedented pandemic (COVID-19) caused by SARS-CoV-2. As of 18 April 2021, the SARS-CoV-2 virus that causes COVID-19 has infected more than 130 million people and caused over 3.0 million deaths globally. In Africa, the number of reported COVID-19 has surpassed 4.3 million, with more than 117,000 deaths.

Recognising that the only way we can end the pandemic and safeguard lives and livelihoods on the continent is to rapidly immunise a critical mass of the African population, the African Union Bureau of Heads of State and Government endorsed the COVID-19 Vaccine Development and Access Strategy on 20 August 2020. The strategy aims to vaccinate at least 60 percent of the African population with safe and efficacious COVID-19 vaccines to achieve population level immunity needed to bring the pandemic under control.
The deployment of COVID-19 vaccines will be a significant logistics challenge, vaccinating 35 percent of the African population in 2021 means more than 800 million vaccinations in total or more than 2 million per day for a year. A massive scale-up of capacities will be needed for transport, storage, deployment, training, and inoculation. An assessment of country readiness by the World Bank and partners shows that there are significant gaps in several Member States.

To scale-up COVID-19 vaccination and meet the set target, Africa CDC seeks proposals from Eligible Organisations (defined in section 2.1.1) that possess the capacity to implement the goal and objectives described in the guidelines below. The Africa CDC and Contracting Authority reserve the right not to award all available funds.

In carrying out the activities prescribed in this Call for Proposals, Africa CDC expects to work in close collaboration with the Contracting Authority, Funding Recipients, and Member States. In this way, Africa CDC will have significant technical involvement in implementation activities through the provision of normative guidance, standards and policies, as well as provision of technical advisory services and assistance to address knowledge gaps and to build specialised institutional capacities as appropriate. Moreover, Funding Recipients will be expected to collaborate with Africa CDC-supported partners including, but not limited to, UNICEF and others to ensure synergies and consistency across COVID-19 pandemic response funded activities in line with Africa CDC’s COVID-19 Continental Strategy and Vaccine Development and Access Strategy.

1.2 PROPOSAL INTENT AND PURPOSE

This Call for Proposals is a partnership between the Africa CDC and the Contracting Authority to attract Eligible Organisations (as defined in section 2.1.1) that have the capacity to implement the main goal and objectives described in this Call for Proposals.

The Contracting Authority is seeking Applicants to perform certain services in order to assist it achieve its charitable purposes:

1. To establish, operate and provide programs and services to help children and youth to access education, understand and utilise technology and develop the skills necessary to succeed in a diverse and global workforce;

2. To establish, operate and provide microfinance programs and services to financially disadvantaged persons and communities in order to economically enhance communities and develop entrepreneurs as a means of relieving poverty.

The global COVID-19 pandemic has jeopardised the health, security and livelihoods of people across the world, particularly in communities in developing nations that are stricken by poverty and lack of economic opportunity. This crisis threatens to undermine long-term economic development in these communities.

1.3 CONTEXT

The coordinated and comprehensive scale-up of COVID-19 vaccination needs to be planned, intentional and timely. The moral imperative to vaccinate must be supported by epidemiology, geography as well as the nuance and urgency of context, ensuring that no one is left behind, no vaccine is wasted, and no opportunity to collect data and develop
The Saving Lives and Livelihoods Programme’s Guiding Principles are outlined below:

- **Inclusion**: Include all African Member States and communities
- **Equity**: Reflect Member States’ circumstances and needs through in-depth assessment and consultations
- **Accountability**: Use resources appropriately, efficiently, and transparently
- **African- and country-led**: Empower African governments, public health institutions, and implementing organisations, ensuring that Member States and African institutions remain at the centre of all efforts
- **Collaboration**: Work hand-in-hand with Member States and relevant partners in the field
- **Improvements to national health systems**: Strengthen national health systems for vaccine deployments
- **Iteration and learning**: Apply a test-and-learn approach while scaling up the programme, with a focus on knowledge and institution building.

**COVID-19 VACCINATION CENTRES, TRAINING, AND RECRUITMENT**

While many of the Member States have well-established immunisation programmes, the COVID-19 vaccine rollout will differ significantly in terms of the scale, speed and target groups involved. New processes and systems will have to be introduced, including vaccine recipient registration, appointments, and vaccination certificates, among others. Every effort should be taken to augment systems and processes that are already in place or being established in some Member States. Also, capacities will have to be expanded significantly to manage the demand and ensure that routine immunisation, which has already been hit by lockdowns, is not affected any further. Africa CDC’s strategy on the rapid deployment of COVID-19 vaccines is to support with the logistics of vaccine delivery and provide guidance and materials for the setup of the CVCs in Member States. Experience from the early COVID-19 response activities, for example, the Partnership to Accelerate COVID-19 Testing (PACT), has shown that effective response frequently requires the targeted training of responders. For the CVCs, this will entail building the capacity of clinicians, nurses, counsellors, EPI managers, and epidemiologists on vaccine logistics, demand creation, administration, infection prevention and control, and management of adverse events following immunisation. Trainees will be provided guidance on step-down training.

In order to limit the impact on other routine immunisation programmes, a large number of vaccinators will need to be recruited including clinicians, nurses, counsellors, EPI managers, and epidemiologists on vaccine logistics, demand creation, administration, infection prevention and control.

**1.4 OBJECTIVE OF THE ASSIGNMENT**

The main objective of this assignment is to support Member States to set up and manage CVCs, conduct training, and recruit vaccinators in Member States to contribute towards vaccinating at least 60% of their population with safe and effective COVID-19 vaccines by the end of 2022.
1.5 SPECIFIC OBJECTIVES OF THE ASSIGNMENT

The selected Funding Recipients will:

1. Provide support to African Union Member States to set up local CVCs to meet the target of vaccinating at least 60% of the national population by 2022, adding to and reinforcing existing national or other partner-driven efforts to do the same.

2. Support the provision of infrastructure to operate CVCs.

3. Provide training for cadres of vaccinators and support staff.

4. Recruit, train, and deploy surge capacity of cadres of vaccinators and CVC support staff.

5. Ensure data collection, monitoring, tracking, and reporting.

The final scope of the objectives is subject to alignment on available budgets by activity.

1.6 DELIVERABLES AND EXPECTED OUTCOMES

1) New CVCs (temporary and permanent) are established, and existing health centres are expanded to provide vaccination capacity to cover the gap to meet the target of at least 60% of Member States’ populations vaccinated against COVID-19. The locations and delivery (e.g., cities, mobile, rural health centres), and types of sites will be determined in conjunction with Member States’ national COVID-19 coordinating bodies.

2) Africa CDC and the Contracting Authority have selected a dedicated service provider to work with partners in the procurement of vaccines, vaccine ancillaries, and some other programme supplies on an opt-in basis. The successful partner for this Call for Proposals will be expected to support activities such as:

a) Prepare delivery schedules of COVID-19 vaccines and ancillaries in conjunction with the procurement service provider to prevent bottlenecks in COVID-19 vaccination and to prevent disruption of routine vaccinations;

b) Maintain and monitor real-time inventory and provide ongoing reporting, and monitor stock levels to ensure timeline delivery and minimise loss.

3) CVC implementation partners selected through this Call for Proposals will be responsible for procurement, purchasing, and delivery of all other products required to set up and run CVCs, and train and hire CVC staff. The successful partner for this Call for Proposals will be expected to support activities such as:

a) Determine the supplies needed to perform efficient vaccinations at scale (e.g., tents, appropriate secure cold storage, computers, thermometers, tables and chairs and provision for adverse clinical events);

b) Procure and purchase supplies required to set-up and maintain CVCs;

c) Maintain and monitor real-time inventory and provide ongoing reporting, and monitor stock levels to ensure timeline delivery and minimise loss;

d) Ensure the maintenance and operations of infrastructure (e.g., cold storage equipment, generators).
4) Successful management and operationalisation of CVCs is ensured in conjunction with national governments and/or other implementing partners. This might include, for example, performance management and staff management, maintaining and keeping up to date record books (either digitally or paper-based), ensuring infection control protocols are maintained, and managing bookings and other administration activities.

5) Vaccinators, support staff, and EPI managers are adequately trained to administer vaccinations, and operate CVC sites efficiently and safely.

6) Surge Capacity (including nurses, clinicians, IPC experts, epidemiologists, operations manager) are recruited, hired, trained, staffed, deployed and managed in conjunction with national coordinating bodies.

7) Information systems and necessary tools for data collection, analysis and reporting of all are put in place to enable the national programme (including administration reporting such as ICTS, tracking and monitoring systems, inventory management, and technical reporting such as vaccination throughput, adverse event data collection) are incorporated into CVCs. CVC implementation partners will be required to work with other Programme partners to ensure all IT and data systems are interoperable and can be reported to both country coordinating bodies, the Contracting Authority and Africa CDC.

8) All programmatic variables and KPIs are reported to Africa CDC, the Contracting Authority, and Member States’ national nerve centres (or equivalent national COVID-19 vaccination coordinating or programme management body based on existing reporting protocols, performance data is closely monitored and evaluated, and partners are willing to adjust their approaches with justification and in response to emerging lessons and evolving insights. Applicants will be accountable for the maintenance of data integrity and the provision of all supporting documentation.

Within the technical proposal, Applicants should detail how their proposed approach will address the Programme Principles by answering the following questions:

1. How does the proposed approach plan to embed long-term impact and sustainability of investments made under this Programme to have long-term impacts on health system strengthening in Member States?

2. How does the Applicants propose to interact with existing partners on-the-ground and governments, and boost/complement current efforts?

3. How will the Applicant ensure that any information systems tools and data will be interoperable among national coordinating bodies and the Programme / Africa CDC?

1.7 PERFORMANCE MONITORING

Performance monitoring aims to track implementation of Funding Recipients’ activities (process monitoring) and determine progress on achieving the outcomes (outcome monitoring). Targets will be defined against each KPI by Africa CDC and partners. Selected Funding Recipients will be responsible for reporting on, at a minimum but not limited to, indicators listed below. As part of their technical proposals, Applicants should list additional performance measures which they propose to use to monitor and evaluate their activities.

Required Performance Measures and Reporting Frequency (Minimum Set)

- Actual throughput
  - **Vaccination uptake or vaccination rate:** number of eligible persons who received full vaccination (COV-c) over the period [Reporting Frequency: weekly]
  - **Vaccine administration:** number of vaccine doses administered per week per CVC, and at national level [Reporting Frequency: weekly]
    - by type of vaccine
    - by type of dose (1st dose, 2nd dose, full dose)
by age and gender – *Further demographic details might be added depending on national context*

- Vaccine doses administration against doses reception in CVC: number of unitary doses received in CVCS that have been administered [Reporting Frequency: weekly]
- Vaccine wastage: number of vaccines doses discarded/wasted by reason [Reporting Frequency: weekly]

**Vaccination capacity added**

- **Maximum COVID-19 vaccines administration capacity**: number of doses that can theoretically be administered per week [Reporting Frequency: weekly]
  - in newly setup CVCs
  - in already existing CVCs (capacity expansion of existing CVCs)
  - per CVC
- Number of new CVCs established in each Member State [Reporting Frequency: monthly] – *Required CVC types to be defined depending on country needs*
  - Permanent CVCs
  - Temporary CVCs
- Number of existing CVCs where you contributed to increase capacity [Reporting Frequency: monthly]
- Number of vaccinators per person available at each CVC [Reporting Frequency: monthly]
- Surge Capacity deployed (number of staff, including nurses, clinicians, IPC experts, epidemiologists, operations manager) – *If applicable* [Reporting Frequency: monthly]

**Capability building**

- Number of health care workers trained to administer vaccination [Reporting Frequency: monthly]
- Number of ancillary health care workers trained to support vaccination activities in CVC [Reporting Frequency: monthly]
- Number of Trainers trained to conduct vaccination TOT [Reporting Frequency: monthly]

**CVC logistics**

- **Vaccines received, nationwide and at each CVCs** (# of doses) [Reporting Frequency: weekly]
- Buffer stock of vaccines available, nationwide and at each CVC, assuming CVCs operate at full throughput [Reporting Frequency: weekly]
- Buffer stock of supplies needed to perform efficient and ongoing vaccinations (e.g., vaccine ancillaries, PPE, and other supplies such as tents, cold chain equipment, computers, thermometers, stethoscopes, couches), assuming CVCs operate at full throughput (# days of inventory, range) [Reporting Frequency: weekly]

**CVC management**
— Monthly running cost per CVC for successful financial management and operationalisation (absolute and average cost per vaccine administered) [Reporting Frequency: monthly]

— CVCs with IT and data systems that are interoperable and able to report to both country coordinating bodies, the Contracting Authority and Africa CDC (# of CVCs) [Reporting Frequency: quarterly]

Additional Performance Measures (Custom Indicators)

Applicants should propose additional custom performance measures to monitor achievement of outcomes not directly measured by listed indicators. Custom indicators should include process and outcome measures. Exhaustive list of indicators will be refined and agreed upon by Africa CDC and Funding Recipients and may vary depending on country needs.

**High level Programme impact metrics** — To be reported for broader Programme monitoring purpose – Funding Recipients’ accountability to be determined depending on the context

- Jobs created, directly¹ and indirectly² (# jobs) [Reporting Frequency: quarterly]
  - Permanent jobs created (cumulative #) [Reporting Frequency: quarterly]

- People trained, directly¹ and indirectly² (cumulative #) [Reporting Frequency: quarterly]
  - People trained on transferable, non-COVID-19 specific capabilities (cumulative #) [Reporting Frequency: quarterly]

**Data Sources, recipient and reporting schedule:** Africa CDC has determined that the data source for these indicators are Funding Recipients’ activities and CVCs management data. Reporting will be done directly from Funding Recipient to Africa CDC through a DHIS2 portal (to be confirmed). Reporting should be done in a timely manner – i.e., on the agreed-upon day of the week / month / quarter (depending on the KPI) and timelines of reporting will be a part of partner performance management criteria. Detailed reporting requirements and metrics will be further stipulated in the contracts.

### 1.8 FINANCIAL ALLOCATION PROVIDED BY THE CONTRACTING AUTHORITY

The total indicative envelope available for this Call for Proposals is up to USD 20 million per Lot for the duration of the Programme. This envelope will potentially be made available to multiple successful Funding Recipients per Lot. Applicants are welcomed to bid for more than one Lot, if relevant. Africa CDC and the Contracting Authority make no representation, warranty or guarantee as to the accuracy of the information contained in this Call for Proposals. Any quantities shown or data contained in the Call for Proposals are estimates only and are for the sole purpose of indicating to Applicants the general size of the work. The

---

¹ Number of people directly hired / trained by the partners to meet ToR of this Programme

² Number of people hired / trained by partners or by their own partners as an indirect consequence of the Programme
2 RULES FOR THIS CALL FOR PROPOSALS

These guidelines set out the rules for the submission, selection and implementation of actions financed under this Call for Proposals, in conformity with the provisions of the Saving Lives and Livelihoods: Partner Selection and Management Manual (SLL-PSMM).

2.1 ELIGIBILITY CRITERIA

There are three sets of eligibility criteria, relating to:
- Applicant(s) which may request funding (2.1.1), and their Partners (2.1.2);
- actions for which funding may be provided (2.1.3);
- types of costs which may be taken into account in setting the amount of the funding (2.1.4).

2.1.1 Eligibility of Applicants: who may apply?

(1) In order to be eligible as the Funding Recipient, or in the case of Partners, as the leading Partner for funding, Applicants must:
- be an entity with legal personality, and
- not be a Governmental Organisation, and
- be a not-for-profit organisation, and
- be an Indigenous African Organisation, and
- be directly responsible for the preparation and management of the action with their Partners, not acting as an intermediary.

(2) Potential Applicants may not participate in calls for proposals or be shortlisted for funding if they are in any of the situations which are listed in Section 2.8 of this guide.

In part B section VI of the Funding Application Form (“Declaration by the Applicant”), Applicants must declare that they do not fall into any of these situations listed in Section 2.8 of this guide.

2.1.2 Partnerships and eligibility of Partners

Applicants may act individually or with Partners.

Partners participate in designing and implementing the action, and the costs they incur are eligible in the same way as those incurred by the Funding Recipient. They must therefore satisfy the eligibility criteria as applicable to the Applicant themselves.
The following are not Partners and do not have to sign the “partnership statement”:

- Subcontractors

Funding Recipients have the possibility to award contracts to Subcontractors. Subcontractors are neither Partners nor Associates, and are subject to the procurement rules set out in the Contracting Authority’s standard contract and policies. Notwithstanding Section 2.1.1, Subcontractors may be for-profit organisations.

The Applicant will act as the lead organisation and, if selected, as the Funding Recipient.

2.1.3 Eligible actions: actions for which an application may be made

**Definition:** An action (or project) is composed of a set of activities.

**Duration**

The planned duration of an action may not be lower than 12 Months nor exceed 36 Months.

**Location**

Actions must take place in one or more of the 55 Member States of the African Union. The Call for Proposals is categorised into five Lots covering the five regions of Africa.

**Subcontracting**

In order to support the achievement of the objectives of the action, and in particular where the implementation of the action proposed by the Applicant requires financial support to be given to third parties, the Applicant may propose awarding subcontracts. However, subcontracts may not be the main purpose of the Action and it must be duly justified.

In case where the Applicant foresees to award subcontracts, it has to specify in its Funding Application Form the total amount of funding which may be used for awarding subcontracts as well as the minimum and maximum amount per subcontract. Additionally, a list with the types of activity which may be eligible for subcontracts must be included in the Funding Application Form, together with the criteria for the selection of the recipients of these subcontracts.

The following types of action are ineligible:

- actions concerned only or mainly with individual sponsorships for participation in workshops, seminars, conferences, and congresses; and

- actions which are not related to the assignment.

**Number of applications and contracts per Applicant**

An Applicant may not submit more than one Funding Application Form under this Call for Proposals.

An Applicant may not at the same time be a Partner under another Funding Application Form under this Call for Proposals for a single Lot.

Partners may take part in more than one Call for Proposals within the Programme.
2.1.4 Eligibility of costs: costs which may be taken into consideration for funding

Only “eligible costs” can be taken into account for funding. The categories of costs considered as eligible and non-eligible are indicated below. The budget is both a cost estimate and a ceiling for “eligible costs”. Note that the eligible costs must be based on real costs based on supporting documents (except for subsistence costs and indirect costs where flat-rate funding applies).

Recommendations to shortlist applications for funding are subject to a detailed review of the proposed budget by the Contracting Authority, which review will precede the signing of the contract. Following the review, the Contracting Authority may request clarifications of related costs based on the defined activities and may request modifications to the budget. The amount of funding as a result of these modifications may not be increased.

After the contract is signed, actual expenditure will be tracked to budget and supporting documents must be supplied on an ongoing and timely basis. Expenditure on ineligible costs or a failure to provide sufficient supporting documents could impact the subsequent release of funds and ultimately termination of the contract.

It is therefore in the Applicant’s interest to provide a realistic and cost-effective budget.

Eligible direct costs

1) Eligible costs are costs actually incurred by the Funding Recipient which meet all the following criteria:
   a) they are incurred during the implementation of the action with the exception of costs relating to final reports, expenditure verification and evaluation of the action, whatever the time of actual disbursement by the Funding Recipient and/or its Partners;
   b) must be indicated in the estimated overall budget of the action;
   c) must be necessary for the implementation of the action which is the subject of the funding;
   d) they are identifiable and verifiable, in particular being recorded in the accounting records of the Funding Recipient and determined according to the applicable accounting standards of the country where the Funding Recipient is established and according to the usual cost accounting practices of the Funding Recipient;
   e) must be reasonable, justified and comply with the requirements of sound financial management, in particular regarding economy and efficiency;

2) Subject to the above being respected, the following direct costs of the Funding Recipient and its Partners shall be eligible:
   a) the cost of staff assigned to the action, corresponding to actual gross salaries including social security charges and other remuneration-related costs; salaries and costs must not exceed those normally borne by the Funding Recipient or its partners, as the case may be, unless it is justified by showing that it is essential to carry out the action;
b) travel and subsistence costs for staff and other persons taking part in the Action, provided they do not exceed those normally borne - using reasonable local rates - by the Funding Recipient or its partners, as the case may be;

c) purchase or rental costs for equipment and supplies (new or used) specifically for the purposes of the action, and costs of services, provided they correspond to market rates;

d) cost of consumables;

e) expenses incurred by subcontractors;

f) costs deriving directly from the requirements of the contract (dissemination of information, evaluation specific to the action, audits, translation, reproduction, insurance, etc.)

3) Indirect costs are eligible provided that they do not include costs assigned to another heading of the budget of this Contract.

Eligible indirect costs (overheads)
The indirect costs incurred in carrying out the action may be eligible for flat-rate funding of up to 10% of the total eligible direct costs, based on the individual need of the Funding Recipient.

Contributions in kind
Contributions in kind are not considered actual expenditure and are not eligible costs. The contributions in kind may not be treated as co-financing by the Funding Recipient.

The cost of staff assigned to the Action is not a contribution in kind.

Ineligible costs
The following costs are not eligible:

- debts and provisions for losses or debts;
- interest owed;
- items already financed in another framework;
- purchases of land or buildings;
- purchases of vehicles;
- currency exchange losses;
- taxes (VAT may be eligible in cases where the Funding Recipient (or its partners) cannot reclaim it and the applicable regulations do not forbid coverage of taxes);
- credit to third parties;
- cash payments (nominal cash payments may be allowed if agreed to in advance);
- payments to government officials or, other than as required by law, to government entities.
2.2 HOW TO APPLY AND THE PROCEDURES TO FOLLOW

Open Call for Proposals

2.2.1 Application form

Applications must be submitted in accordance with the instructions in the Funding Application Form.

Applicants must apply in English, French, Arabic or Portuguese with a strong preference for English and French.

Any error or major discrepancy related to the points listed in the instructions on the Concept Note or any major inconsistency in the Funding Application Form (e.g., the amounts mentioned in the budget are inconsistent with those mentioned in the application form) may lead to the rejection of the application.

Clarifications will only be requested when information provided is unclear, thus preventing Africa CDC or the Contracting Authority from conducting an objective assessment.

Hand-written applications will not be accepted.

Please note that only the Funding Application Form and the published annexes which have to be filled in (budget) will be evaluated. It is therefore of utmost importance that these documents contain ALL relevant information concerning the action. No additional annexes should be sent.

2.2.2 Where and how to send the Applications

Applications must be submitted electronically to SLLapplications@africa-union.org and copy to SLLpartners@mastercardfdn.org. The complete Funding Application Form (part A: Concept Note and part B: Full Application Form), budget, and eligibility supporting documents must also be supplied in electronic format in a separate and unique file (e.g., the application must not be split into several different files).

The Checklist (Section V of part B the Funding Application Form) and the Declaration by the Applicant (Section VI of part B of the Funding Application Form) must be signed, scanned and included in the file.

Where an Applicant sends several different applications, each one has to be sent separately.

The cover sheet of files must bear the reference and the title of this Call for Proposals, together with the title and number of the Lot, the full name and address of the Applicant, and the words "Not to be opened before the opening session". The Applicant should protect the files with a password which will be sent to the abovementioned e-mail address at the time of opening of the application. Applicants should share file passcodes 15 minutes before the closing time of the bids.
Applicants must verify that their application is complete using the checklist (section V of part B of the Funding Application Form). **Incomplete applications may be rejected.**

**2.2.3 Deadline for submission of Applications**

The deadline for the submission of applications is **Friday 30.07.2021**, the deadline for receipt is at **1500 hours Addis Ababa Time GMT+3 Time Zone**. Any application submitted after the deadline will automatically be rejected.

**2.2.4 Further information for the Application**

An information session on this call for proposals will be held on **Tuesday 13.07.2021 at 1500 hours Addis Ababa Time GMT+3 Time Zone**. The link to be used for this session will be: [https://zoom.us/j/98978578106?pwd=d1JoUW13TWZJKy9Ybitla0VUWnpmZz09](https://zoom.us/j/98978578106?pwd=d1JoUW13TWZJKy9Ybitla0VUWnpmZz09)

Questions may in addition be sent by e-mail no later than 15 days before the deadline for the submission of applications to the below addressee(s), indicating clearly the reference of this Call for Proposals:

SLLapplications@africa-union.org **and copy to** SLLpartners@mastercardfdn.org

Africa CDC and the Contracting Authority have no obligation to provide further clarifications after this date.

Replies will be given no later than 7 days before the deadline for the submission of applications.

In the interest of equal treatment of Applicants, neither Africa CDC nor the Contracting Authority can give a prior opinion on the eligibility of an Applicant, a Partner, an action or specific activities.

Questions that may be relevant to other Applicants, together with the answers, will be published on the internet at the website: [https://www.africacdc.org/](https://www.africacdc.org/). It is therefore highly recommended to regularly consult the abovementioned website in order to be informed of the questions and answers published.

**2.3 EVALUATION AND SELECTION OF APPLICANTS**

Applications will be examined and evaluated by an evaluation committee established by Africa CDC with the possible assistance of external assessors or appointed experts. All actions submitted by Applicants will be assessed according to the following steps and criteria:

If the examination of the application reveals that the proposed action does not meet the eligibility criteria stated in paragraph 2.1.3, the application shall be rejected on this sole basis.

**STEP 1: OPENING SESSION AND ADMINISTRATIVE CHECK**

The following will be assessed:
● The submission deadline has been respected. If the deadline has not been respected the application will automatically be rejected.

● The Funding Application Form satisfies all the criteria specified in points 1-5 of the Checklist section V of part B of the Funding Application Form. If any of the requested information is missing or is incorrect, the application may be rejected on that sole basis and the application will not be evaluated further.

Following the opening session and the administrative check, Africa CDC will send a letter to all Applicants, indicating whether their application was submitted prior to the deadline, informing them of the reference number they have been allocated and whether they have been recommended for further evaluation.

STEP 2: EVALUATION OF THE CONCEPT NOTE

The evaluation of the Concept Notes that have passed the first administrative check will cover the relevance of the action, its merits and effectiveness, its viability and sustainability. The evaluation committee reserves the right not to undertake the evaluation of the Concept Notes whenever considered justified (for example when a less than expected number of applications are received) and to go straight to the evaluation of the corresponding Full Application Forms.

Please note that the scores awarded to the Concept Note are completely separate from those given to the Full Application.

The Concept Note will be given an overall score out of 50 points in accordance with the breakdown provided in the evaluation grid below. The evaluation shall also verify the compliance with instructions provided in the guidance for Concept Note, part A of the Funding Application Form.

The evaluation criteria are divided into headings and subheadings. Each subheading will be given a score between 1 and 5 in accordance with the following assessment categories: 1 = very poor; 2 = poor; 3 = adequate; 4 = good; 5 = very good.

<tr>
<td>Explanation on the measures introduced by the proposed action to increase long-term sustainability, including the ownership and capacity of the state and non-state actors as well as local communities</td>
<td></td>
</tr>
</tbody>
</table>

TOTAL 50

Once all Concept Notes have been assessed, a list will be established with the proposed actions ranked according to their total score.

Firstly, only the Concept Notes which have been given a score of a minimum of 12 points in the category “Relevance” as well as a minimum total score of 30 points will be considered for pre-selection.

The evaluation committee will subsequently proceed with the Applicants whose proposals have been pre-selected.

**STEP 3: EVALUATION OF THE FULL APPLICATION**

An evaluation of the quality of the applications, including the proposed budget, and of the capacity of the Applicant and its Partners, will be carried out in accordance with the evaluation criteria set out in the evaluation grid included below. There are two types of evaluation criteria: selection and shortlist criteria.

**The selection criteria** are intended to help evaluate the Applicants’ financial and operational capacity to ensure that they

- have stable and sufficient sources of financing to maintain their activity throughout the period during which the action is being carried out and, where appropriate, to participate in its funding.
- have the management capacity, professional competencies and qualifications required to successfully complete the proposed action. This also applies to any Partners of the Applicant.

**The shortlist criteria** allow the quality of the applications submitted to be evaluated in relation to the set objectives and priorities, and Applicants to be shortlisted to perform actions which maximise the overall effectiveness of the call for proposals.

**Scoring:**

The evaluation criteria are divided into sections and subsections. Each subsection will be given a score between 1 and 5 where: 1 = very poor; 2 = poor; 3 = adequate; 4 = good; 5 = very good.

**FULL PROPOSAL EVALUATION GRID**
### Criteria Scores

**Approach**
- Clarity, innovation and feasibility of the approach: 5
- Plans/strategies of collaboration with Ministry of Health and donors: 5

**Operational Capacity**
- Administration, financial, and management systems to support transparent accountabilities of the proposed activities: 15
- Management of resources of the programme (including hiring, procurement, sub-contractors, partnerships), budgets and backstopping capacity: 15
- Qualified personnel with experience in national vaccination plans: 5

**Technical Capacity**
- Experience working in other public health areas like TB, Malaria or HIV at country and regional levels and with WHO, CDC, PEPFAR, the Global Fund: 20
- Experience working with the target population, with knowledge and connections with the communities: 15
- Alignment with Africa CDC’s existing instruments RISLNET, NPHIs, and experience with rolling out large scale training with the ECHO Platform: 15

**Evaluation and Performance Measurement**
- Presentation of a performance monitoring plan that clearly and accurately tracks each activity, including monitoring, tracking, and reporting: 15
- Presence of enabling systems, processes, and protocols to enable the process, including governance of performance management: 15
- Past experience and qualified personnel in programme monitoring and evaluation and preparing reports: 15

**TOTAL**

**Financial Proposal**

**Realistic and Cost Effective**
- Proposed direct and indirect costs to be incurred must meet eligibility criteria as defined in the guidelines for Applicants: 10
- Unit cost and quantities must be provided for all individual goods purchased:
  - Unit costs should be representative of the real estimated costs to be incurred (costs should not be unrealistic or ineligible): 10
  - Quantity of units should reflect the scope of the Applicant’s proposed action: 10
- Details of service costs to be provided should include amongst others but not limited to nature/type of service, period for which service will be provided, total real estimated costs, etc.: 10
- Cost and length of service should be reasonable and complete: 10
- The proposed Applicant’s budget should clearly detail the proposed action plan and be documented in the format provided in the RFP: 10

Open Call For Proposal For Setting Up And Managing Of Covid-19 Vaccination Centres, Training, And Recruitment Of Vaccinators In African Union Member States Under The Saving Lives And Livelihoods Initiative

2021 Guidelines For Applicants

PAGE 22 OF 28
Minimum score to be considered for shortlisting is 70%
(Minimum score threshold may be revised based on application volume)

Provisional selection

Following the evaluation, a table listing the applications ranked according to their score and within the available financial envelope will be established as well as a reserve list following the same criteria.

Note: The scores awarded in this phase are completely separate from those given to the Concept Note of the same application.

STEP 4: VERIFICATION OF ELIGIBILITY OF THE APPLICANT AND PARTNERS

The eligibility verification, based on the supporting documents requested by the Contracting Authority (see section 2.4) will only be performed for the applications that have been provisionally selected according to their score and within the available financial envelope.

- The Declaration by the Applicant (Section VI of part B the Funding Application Form) will be cross-checked with the supporting documents provided by the Applicant. Any missing supporting document or any incoherence between the Declaration by the Applicant and the supporting documents may lead to the rejection of the application on that sole basis.

- The eligibility of the Applicant, the Partners, and the action will be verified according to the criteria set out in sections 2.1.1, 2.1.2 and 2.1.3.

2.4 SUBMISSION OF SUPPORTING DOCUMENTS FOR PROVISIONALLY SELECTED APPLICATIONS

Applicants who have been provisionally selected or listed under the reserve list will be informed in writing by Africa CDC and be required to provide the following:

1. The statutes or articles of association of the Applicant organisation and of each Partner organisation.

2. External audit reports produced by an approved auditor, certifying the Applicant’s accounts for the last two financial years.

3. Copy of the Applicant’s year-to-date accounts (the profit and loss account and the balance sheet for the previous financial year for which the accounts have been closed).

4. A financial identification form conforming to the model attached at Annex C of these Guidelines, certified by the bank to which the payments will be made. This bank must be located in the country where the applicant is registered.

5. Tax registration and latest compliance certificate with applicable local authority

6. Key internal policies, including:
   - Anti-money laundering
   - Anti-terrorism
   - Anti-corruption
   - Anti-bribery
— Conflict of interest
— Child and youth safeguarding
— Privacy and data security
— Code of conduct
— Procurement policies
— Accounting policies relating to payments
— Any other policies relevant to the implementation of the proposed program

The requested supporting documents must be scanned copies of originals, with original versions made available on request through registered mail.

Where such documents are not in one of the official languages of the African Union, a translation into English of the relevant parts of these documents, proving the Applicant’s eligibility, must be attached and will prevail for the purpose of analysing the application.

If the abovementioned supporting documents are not provided before the deadline indicated in the request for supporting documents sent to the Applicant by the Contracting Authority, the application may be rejected.

Based on the verification of the supporting documents by the evaluation committee it will make a final recommendation to the Contracting Authority which will decide on the award of funding.

2.5 NOTIFICATION OF THE CONTRACTING AUTHORITY’S DECISION

2.5.1 Content of the decision

Applicants will be informed in writing by Africa CDC of the final decision concerning their application and, in case of rejections, the reasons for the decision.

Applicants believing that they have been harmed by an error or irregularity during the process may file a complaint. Applicants can lodge a complaint addressed to Africa CDC through SLLcomplaints@africa-union.org.

2.5.2 Indicative timetable

**2.6 CONDITIONS APPLICABLE TO IMPLEMENTATION OF THE ACTION FOLLOWING THE DECISION TO SHORTLIST APPLICANTS FOR FUNDING**

Following the decision to shortlist them, the Funding Recipient may be offered a contract with the Contracting Authority, as defined following the conclusion of the Call for Proposals process. All terms and conditions are subject to this final contract and the policies of the Contracting Authority, which will include, but not be limited to, the Contracting Authority’s requirements with respect to reporting, monitoring, recordkeeping, detailed work plans, and budget requirements.

The Call for Proposals is not intended to create and shall not create a formal legally binding bidding process and shall instead be governed by the law applicable to direct commercial negotiations.

Applicants should note that if the Contracting Authority does not proceed to conclude an agreement with a successful Applicant, the Contracting Authority may invite the next-best-ranked Applicant to enter into negotiations. There will be no legally binding relationship created with any Applicant prior to the execution of a written agreement.

**2.7 IMPLEMENTATION CONTRACTS**

Where implementation of the action requires the Funding Recipient to award procurement contracts, it must award the contract to the tenderer offering the best value for money, that is to say, the best price-quality ratio, in compliance with the principles of transparency and equal treatment for potential contractors, care being taken to avoid any conflict of interests.

**2.8 ETHICAL PRINCIPLES**

2.8.1 The Contracting Authority requires that Applicants, Partners, Subcontractors and Associates observe the highest standard of ethics during the application and execution of such contracts. In pursuance of this policy the Contracting Authority
(a) defines, for the purposes of this provision, the terms set forth below as follows:

(i) “Corrupt practice” is the offering, giving, receiving or soliciting, directly or indirectly, of anything of value to influence improperly the actions of another party;

(ii) “Fraudulent practice” is any act or omission including a misrepresentation that knowingly or recklessly misleads, or attempts to mislead, a party to obtain a financial or other benefit or to avoid an obligation;

(iii) “Collusive practice” is an arrangement between two or more parties designed to achieve an improper purpose, including to influence improperly the actions of another party;

(iv) “Coercive practice” is impairing or harming or threatening to impair or harm, directly or indirectly, any party or the property of the party to influence improperly the actions of a party;

(v) “Obstructive practice” is deliberately destroying, falsifying, altering or concealing of evidence material to any investigation or making false statements to investigators in order to materially impede any investigation into allegations of a corrupt, fraudulent, coercive or collusive practice; and/or threatening, harassing or intimidating any party to prevent it from disclosing its knowledge of matters relevant to the investigation or from pursuing the investigation;

(vi) “Illegal practice” includes support, financial or otherwise, to benefit terrorist groups or individual members of those groups, or for terrorist activities, either directly or indirectly; money laundering; and other misappropriation of assets or financial abuse.

(b) will reject a recommendation for shortlisting of an Applicant if it determines that the bidder recommended for shortlisting has, directly or through an agent, engaged in corrupt, fraudulent, collusive, coercive, obstructive or illegal practices in competing for the contract in question;

(c) will declare a firm ineligible, either indefinitely or for a stated period of time, to be awarded an Contracting Authority’s financed contract if it at any time determines that the firm has, directly or through an agent, engaged in corrupt, fraudulent, collusive, coercive, obstructive or illegal practices in competing for, or in executing, a Contracting Authority’s financed contract.

2.9 TERMS AND CONDITIONS

These terms and conditions apply to Applicants’ participation in this Call for Proposals process in any form whatsoever, including, without limitation: (i) submitting a response to this Call for Proposals; or (ii) using the information contained in this Call for Proposals or any supporting documents relating to this Call for Proposals that may be made available by Africa CDC or the Contracting Authority from time to time.

Africa CDC and the Contracting Authority reserve the right to amend, add to or withdraw all or any part of this Call for Proposals at any time. Applicants will remain responsible for all
costs and expenses incurred by them, their staff, and their advisors or by any third party acting under their instructions in connection with this Call for Proposals process.

2.9.1 Conflict of Interest

Applicants must disclose in their application any circumstances, including personal, financial, and business, that will or might give rise to a real or perceived conflict of interest by taking part in this call for proposals process. This also applies to any Partners, Associates or Subcontractors proposed by the Applicant. Where Applicants identify potential conflicts, they shall state in the application how they will avoid such conflicts. Africa CDC and the Contracting Authority reserve the right to reject any Applicant which, in the sole opinion of Africa CDC or the Contracting Authority, gives rise or potentially gives rise to a conflict of interest.

2.9.2 Confidentiality, Intellectual Property and Use of Documents

The contents of this Call for Proposals and any supporting documents that may be made available by Africa CDC or the Contracting Authority from time to time throughout this Call for Proposals process are confidential and proprietary to Africa CDC and the Contracting Authority and protected by intellectual property rights. This Call for Proposals and such other documents are being made available to Applicants on the condition that each Applicant shall always keep the contents of this Call for Proposals and such other documents confidential and shall not reproduce, distribute or disclose the contents for any purpose, except: (i) to the Applicant’s own employees that have a need-to-know in order to facilitate the Applicant’s participation in this Call for Proposals process; and (ii) where required by applicable laws or regulations.

Nothing in these terms and conditions shall convey to the Applicant any right, title, interest or license in, or to, any trademark, trade name, or any other intellectual property rights of Africa CDC or the Contracting Authority. The Applicant shall not issue any news release, public announcement, advertisement, or any other form of publicity, in any form or content, in connection with this call for proposals or referring to either or both of Africa CDC or the Contracting Authority without first obtaining the written approval of Africa CDC and the Contracting Authority.

If Applicants have any doubts about the disclosure of confidential or proprietary information, Africa CDC and the Contracting Authority recommend that they consult with their legal counsel and take steps necessary to protect their confidential information and intellectual property.

2.9.3 Limitation of Liability and Indemnity

While the information provided in this Call for Proposals and in supporting documents that may be made available by Africa CDC or the Contracting Authority from time to time throughout this Call for Proposals process have been prepared in good faith, the information does not purport to be exact or comprehensive. Neither Africa CDC, the Contracting Authority nor their respective affiliates, officers, directors, employees or other representatives, make any representation or warranty as to the accuracy or completeness of
the information, nor shall they be liable for any loss or damage arising from or in connection with any reliance on such information.

This Call for Proposals process is an opportunity only, and none of Africa CDC, the Contracting Authority or their respective affiliates, officers, directors, employees or other representatives, make any representation or warranty that participation in this call for proposals process in any form whatsoever will lead to any result or commit Africa CDC or the Contracting Authority to any course of action, nor shall they be liable for any loss or damage arising from or in connection with any participation in this Call for Proposals process in any form whatsoever.

By using the information contained in this Call for Proposals or any supporting documents relating to this Call for Proposals that may be made available by Africa CDC or the Contracting Authority from time to time, or by otherwise participating in this Call for Proposals process in any form whatsoever, Applicants hereby agree to indemnify and hold harmless Africa CDC, the Contracting Authority and their respective affiliates, officers, directors, employees and other representatives, from and against any and all claims, liabilities, costs and expenses arising from or in connection with the Applicant’s: (i) breach of these terms and conditions; (ii) negligent act, omission or wilful misconduct relating to this Call for Proposals process; or (iii) failure to comply with applicable laws and regulations relating to this Call for Proposals process.

2.9.4 Consent to Due Diligence

By submitting an application in response to this Call for Proposals, an Applicant and any Partner consents to the conduct by Africa CDC, the Contracting Authority, or their professional advisors or service providers, of due diligence investigations with respect to the Applicant as Africa CDC or the Contracting Authority may in their sole discretion deem necessary. The Applicants acknowledges that any agreement with the Contracting Authority is subject to a satisfactory due diligence review, as determined by Africa CDC and the Contracting Authority in their absolute discretion.
