\*Current eligibility and vaccine coverage taken from AU Member State and WHO reports. Target age groups to reach a 70% or greater vaccination coverage rate calculated by using 2020 population estimates by Member State and 5-year age increments from the United Nations, Department of Economic and Social Affairs, Population Division (2019). World Population Prospects 2019, Online Edition. Rev. 1. <https://population.un.org/wpp/Download/Standard/Population/>. †high risk populations: front-line health workers, vulnerable people aged 50+ years, religious leaders, community relays, traders, transporters, and journalists. ‡ reflects data from early August to mid September 2021 reports. Vaccination coverage key: green: 70% or greater COVID-19 vaccination coverage, gold: 40-69% coverage, red: less than 40% coverage.
