

Public Health Emergency Operations Centres (PHEOCs) and COVID-19 Management

Weekly Webinar Series and Online Community of Practice

Series Incident Management System (IMS)

Topic of the Week Plans Function

Attend all sessions and complete the quizzes to obtain an e-CERTIFICATE.

Series overview:

This webinar series will provide practical knowledge on the concept, principles and structure of Incident Management System (IMS). Designed to enable participants operate efficiently within the IMS, the series will cover a range of topics that are essential to the application of IMS in public health emergency management. Exemplary use-cases and lessons learned will also be shared.

Objectives:

At the end of this series, participants should be able to:

- Describe the features and characteristics of IMS
- Identify the IMS organization appropriate to the complexity of an event
- Manage incidents by objectives
- Efficiently operate under IMS in response to public health emergencies.
