

CALL FOR APPLICATIONS FOR AFRICAN UNION (AU) COVID-19 VACCINATION BINGWA INITIATIVE - EASTERN AFRICA REGION

About the Initiative

COVID-19 vaccines offer life-saving protection against severe COVID-19 that has resulted in significant morbidity and mortality. This also means the speed and scale of uptake of vaccinations needs to be ramped up to avoid vaccine wastage, bring the pandemic under control and speed economic recovery on the continent.

Since the first case of COVID 19 was recorded in Africa on 14 February 2020, the African Union (AU) through the Africa Centres for Disease Control and Prevention (Africa CDC) has taken unprecedented steps to support AU Member States to expand their COVID-19 vaccination efforts. As of 13 October 2022, over 997 million vaccines have been supplied, of which about 717 million have been administered to the African population. This translates to approximately 72% of the supplied vaccines having been administered, leading to a vaccination coverage of 23.2 % on the continent compared to a target of 70% (900 million) by the end of 2022.

With African youths constituting over 60% of the continent's population, their mobilization and meaningful engagement has the potential to be game-changing in controlling the COVID-19 pandemic on the continent. This initiative is further motivated by H.E. President Cyril Ramaphosa's call for innovative ways to scale up vaccinations across the continent. In April 2022, the chairperson of the African Union Commission officially launched an African Union public-private-youth initiative co-led by Africa CDC under the name "**African Union COVID-19 Vaccination Bingwa Initiative**" as part of the Africa CDC's Programme of **Saving Lives and Livelihoods**. *Bingwa is the Swahili word for "Champion"*. The initiative seeks to establish a network of COVID-19 vaccination youth champions across the continent to accelerate the uptake of COVID-19 vaccination in Africa.

Africa CDC is therefore announcing a **call for applications** for young Africans from the Eastern Africa region who are motivated and willing to contribute to the acceleration of the COVID 19 vaccination uptake in their countries, to apply for the **African Union COVID-19 Vaccination BINGWA initiative**. The selected BINGWAs (**champions**) will be expected to perform the following duties for a period of up to 12 months:

1. Develop a community engagement plan to mobilize their respective communities including friends and families to get vaccinated fully against COVID-19
2. Support capacity building efforts to onboard social actors within the community to help mobilize for the COVID-19 vaccinations
3. Organize innovative youth-focused events to mobilize young people and the broader community to take up the COVID-19 vaccines e.g. Campaigns, community mobilization, peer-to-peer advocacy, etc.
4. Serve as AU/Africa CDC focal points for youth vaccination in their respective countries.
5. Participate in the capacity building training organized by Africa CDC in preparation of their deployment to respective countries/communities.
6. Document progress recorded in mobilizing their respective communities and also the improvement in vaccination rates in their community.

Eligibility criteria for AU BINGWA

Applicants must meet the following criteria:

1. Citizen and resident of an Eastern Africa Region AU Member State (Union of the Comoros, Republic of Djibouti, State of Eritrea, Federal Democratic Republic of Ethiopia, Republic of Kenya, Republic of Madagascar, Republic of Mauritius, Republic of Rwanda, Republic of Seychelles, Federal Republic

I AM A
BINGWA

YOU TOO CAN
BE A BINGWA.

of Somalia, Republic of the Sudan, Republic of South Sudan, United Republic of Tanzania and Republic of Uganda).

Selection criteria for BINGWA Initiative:

1. An independent committee comprising of experts from Africa CDC and African Union Commission will conduct selection to the initiative.
2. Application documents must provide clear and detailed information about the applicant including their age, gender, nationality, language, education, values and experience relating to the following criteria: – experience and professional attainment in youth engagement activities in their respective countries, experience in community mobilization, and experience in youth leadership will be a benefit.
3. Submission of a **written** motivation statement briefly detailing why you want to become a BINGWA and what you see as the challenges/gaps hampering vaccination in Africa and specifically in your country. Further, detail your ideas for increasing COVID-19 vaccine uptake in your community.
4. A video interview may be scheduled for shortlisted applicants.

What is included in the BINGWA Initiative?

The BINGWA Initiative is a one-year initiative that will equip vaccinated youth champion across the African continent with technical skills to reach, mobilize and engage their communities and peers to get fully vaccinated against COVID 19. Selected BINGWAS will be supported by experienced experts in key public health, SBCC and community engagement fields from African union / Africa CDC and Partner organizations to enhance their skills in the following areas among others:

1. Understanding Africa CDC and the New Public Health Order for Africa
2. Understanding COVID 19 and COVID 19 Vaccination
3. Risk Communication, Community Engagement and influencing for COVID 19 vaccination
4. Social media Engagement and Mobilization for impact
5. Social Behavior Change Communication (SBCC) and,
6. Planning, monitoring, evaluation and Reporting

How to apply

Applicants are expected **to fill out the application form online** with their personal information, educational and professional background attaching a:

- Statement briefly detailing why they want to become BINGWA and What are the challenges/gaps hampering vaccination in Africa and in their country specifically
- Proof of Education achievements (degrees)
